ICCA and WCO Cancel Global Summit in Brazil

The International Corrugated Case Association (ICCA) and the World Containerboard Organisation (WCO) have made the decision to cancel the Global Summit to be held October 17 – 19, 2017 at the Sofitel Guarujá Jequitimar near Sao Paulo, Brazil.

The associations have informed all registrants and speakers of the cancellation individually.

Webinars to Address Key Topics

To address Global Summit topics of great interest to our members, such as ICCA's Global Forecast and Worldwide Fiber Availability, ICCA plans to schedule webinar sessions that will take place in the coming months. Members should watch their e-mail for information on registering for these webinar events.

The Global Summit Returns in 2019

The associations remain committed to high-quality conferences that offer information, excellent speakers and the idea exchange that can only be found when bringing together industry leaders for the Global Summit. Plans are already underway for the 2019 Global Summit to be held in Florida, USA in the spring of 2019.

The Global Summit brings together containerboard and corrugated industry leaders from around the globe. The 2019 event will build on the success of previous Summits held in Sydney, Australia; Tokyo, Japan; Montreal, Quebec, Canada; Paris, France and most recently Taipei and Shanghai, China.

For more information, visit the ICCA website, www.iccanet.org.
